MUNICIPAL COUNCIL SETS MILL RATE

The regular monthly meeting of the Municipal District of Carbon was held in the Municipal office on Wednesday afternoon, March 13 and all councillors were present. Edward Schell a new member on the council, subscribed to the oath of office.

Mr. S.N. Wright was elected as the Reeve for the ensuing year and R.S. Near was elected Deputy Reeve.

It was decided to employ McCannel Brothers as chartered accountants for this year, at the rate of \$250 without expenses.

Dr. McFarlane of Carbon was appointed Medical Health Officer for Divisions 1, 2, 3 and 4 at the salary of \$200 per year. Dr. Barden of Wayne was appointed Medical Health Officer for divisions 5, 6 and 7 at the salary of \$250 a year.

The mill rate of the Municipality was set at 7 cents on the dollar as a general tax on the valuation of all rural lands and 3 mills on such lands for the paying off of last year's indebtedness.

S. F. Torrance was elected as delegate to attend the Hall Insurance Convention to be held in Calgary on March 20th.

The Council authorized the purchase of 60 drums of weed chemical from the Alaskan Chemical Products Co. for the purpose of destroying weeds in his district.

Dick Gimble was appointed tractor man for the season and he has the power to get his own grader man and an assistant.

CIVIL SERVICE PLAYED TO CROWDED HOUSE

The play "Civil Service," which was put on in the Farmers Exchange hall on Thursday night last, met with a great success and the place was packed to over-capacity, the largest crowd ever recorded at any one performance in Carbon filled the hall.

The play was a comedy drama in three acts and those taking part were well trained and played their part exceptionally well, the play being a credit to themselves and to their director, Mr. Sid Willis. This play is probably the best that has ever been staged in Carbon with local talent and the success has encouraged the manager to put this play on again in Carbon next Thursday evening, March 28th. Many who saw the play will no doubt go again and those who could not be at the last performance will have a chance to see what the local players really can do. Music during the play was furnished by Mrs. Barr and Dick Gimble. The following is a list of the characters taking part in the play:

Old R.E.D., J. A. MacDonald; The Inspector, Sid Willis; The Postmaster, E.J. Rouleau; The Young Money Order Clerk, Gordon Ramsay; The Mailing clerk, A.H. Jealous; The Country Boy, Jack Spence; The Postmasters' Daughter, Miss Kathleen Watkins; A Lady of Importance, Mrs. L. Poxon; A Hired Girl, Miss Kathleen Watkins; A Collector, Miss Dorothy Annear; The Plucky Little Stamp Clerk, Miss Kate Ramsay.

Following the play a dance was held in the hall and the music was provided by local talent. Mr. and Mrs. Barr, Dick Gimble, Jack Spence and Sid Willis. In all the evening's entertainment was a success and the proceeds which will amount to about \$300 clear, will go towards the new Elks Community Hall Fund.

This same play will be staged in Rockyford tomorrow (Friday) night, under the auspices of the Ratepayers'

THEODORE TRICKER DIES AT HOME IN VANCOUVER

Word has been received that Theodore Tricker of Vancouver B. C. had died in that city on Friday, March 15, death being due to heart failure.

The late Mr. Tricker was 35 years of age and up to the time of his death he carried on the trade of painting and paperhanging in Vancouver. Besides a wife and two small boys, he leaves to mourn his loss a mother and sons residing at Swatwell.

The corpse is being accompanied to Swatwell by his brother, Frank and family who were in Vancouver, and funeral services will be held from the Swatwell church on Friday, March 22 at 2 p.m.

BASEBALL CLUB ORGANIZED IN CARBON TUESDAY NIGHT

A meeting to organize a Baseball Club was held in the Municipal hall Tuesday evening. The following officers were elected for 1929, President, J. A. MacDonald; Vice-President, P. Edwards; Sec.-Treas., G. F. MacIntyre; Executive, R. Waeker, S.J. Garrett and H. Kary. Manager, G. F. McGregor. The Executive was asked to locate suitable grounds for a diamond, possibly on the 1st or on the ground owned by the Kneehill Coal Co. where the stampede was held the past two years. It was decided to play local players only in the town and district and 18 prospective players are in view. A subscription list will be taken around within the next few days to raise funds to supply the necessary equipment and it is to be hoped that the boys will be given good support from all concerned.

First Young thing: What is the difference between learning to golf and motoring?

Second Young Thing: In golf you hit nothing and in motoring you hit everything.

Association and a large crowd is anticipated. A dance will follow the Rockyford performance.

BOARD OF TRADE TO SPONSOR COMPTION

The regular meeting of the Carbon Board of Trade was held in the Municipal office on Monday night and a poor attendance was recorded.

The minutes of the previous meeting were read and adopted. The secretary was to get in touch with the executive and have them make an early canvass for members.

Discussion on the leasing of ground for a sports ground, too place and a committee composed of P. Edwards and Chas. Nash was appointed to see Mr. McPherson regarding grounds.

It was reported that 200 trees had been ordered by the Board of Trade and that these would be here for distribution sometime in April.

The flour mill proposition came up and a committee of Messrs. Greenan, Barr, Edwards, Craddock, Shaw, P. Barker and Jas. Gordon was appointed to interview Mr. Bye of Trochu at an early date and see just what concessions he would want to put in such a mill in Carbon.

Mr. Jas. McLeod having resigned as vice-president on account of leaving town, Mr. R. S. Shaw was elected to fill the vacancy.

A matter of great importance was the Field Crops Competition in this district and Messrs. R.S. Shaw and P. Barker were present as delegates of the Local U.F.A. to see if the Board of Trade would sponsor the matter.

The Board of Trade decided that they would go in with the U.F.A. as a joint association in this matter and put up a suitable prize, possibly a sup of a shield, to the winner of this competition. There will also be a cash prize of about \$75 to go to the winner.

The following are the rules of the Field Crops Competition. These rules are set out by the Department of Agriculture at Edmonton.

1. Competition shall be open to any five classes of the following: wheat, oats, barley, peas, rye, corn, potatoes.

The Evil Of Grain Mixing

Following the unsatisfactory result of grading the 1928 wheat crop of Western Canada, a veritable deluge of protest and complaint has poured in to Dominion and Provincial Governments, Wheat Pools, Grain Commission, Grain Exchange, and all farmer organizations. Merchants and business men generally, suffering because the farmers have suffered, add their protests. In all this volume of criticism perhaps no one feature has called forth more vigorous objection than has the practice of mixing.

It is quite true that everybody does not see eye to eye on this subject, and farmers themselves are sharply divided on the issue whether or not mixing should be absolutely prohibited and made an offence under the law. While many favor such a policy, others hold the opinion that if mixing was entirely disallowed there would be a terrible glut of low grade and no grade grain on the market, with resulting enormous loss to producers.

The Saskatchewan Grain Inquiry Commission has gathered within its own province a mass of evidence on this and allied subjects affecting the grading and marketing of Western grain, and proposes to carry its investigations further afield in Manitoba, Alberta, British Columbia, and Europe, in what is recognized as the most determined attempt yet made to find solutions to some of the acute problems confronting the Western grain grower. In due time the report and recommendations of that Commission will be laid before the legislative authorities.

There is, however, another form of mixing in regard to which there are no two opinions. It is unanimously denounced as an evil, and one that is costing the farmers of Western Canada many millions of dollars annually. Furthermore, control in the case of this particular form of mixing rests, not with Governments or Wheat Pools, or Grain Commissions, but with the individual grain grower.

The form of mixing to which reference is made is that indulged in by so many farmers of sowing seed of mixed varieties. Instead of sowing only pure seed of one good variety, the seed too frequently used is a mixture of different varieties, white wheats mixed with red wheats, with consequent loss in value of the crop harvested. Thus the original mixing takes place, not in country or terminal elevators, not on board ship, not in the world markets, but right on the farms of Western Canada.

Investigation over a number of years has established the fact that certain varieties are best adapted to certain districts. This information is available to every farmer. It is his for the asking from his nearest Experimental Farm. He should secure this information and then sow the variety which grows best in his district. He may not be able to afford to purchase sufficient pure, registered seed of that particular variety to seed his entire acreage this year, but he should get a few bushels of such pure, registered seed, sow it in a prepared plot, and thus increase his seed supply on his own farm.

The frosts of last Fall make it necessary that all seed sown this spring be first tested for its germinating qualities. Strong germination is necessary in wheat, oats, barley and flax. Strong plants having healthy vigorous roots withstand adverse conditions such as spring frosts, insects, disease, better than weak plants. Farmers will be well advised, therefore, to send samples of their seed grain to their nearest Dominion Seed Laboratory and have it tested.

There is still another form of mixing on the farm which is even more disastrous, that is the mixing of weed seeds with the grain through the use of impure and not properly cleaned seed. Governments and railways combine to run special seed cleaning machinery demonstration trains through the country. Governments build seed cleaning plants. Nevertheless, tons of weed seeds are sown annually, as well as mixed varieties of grain, as was definitely proven by the seed drill survey conducted in Saskatchewan a couple of years ago.

Western Canada farmers must begin at the beginning in dealing with this mixing evil. First, it is essential that all seed sown be of one good variety, thoroughly cleaned, with all weed seeds eliminated, and tested to demonstrate its germinating qualities. With the groundwork thus laid for the production of clean, high grade grain, necessary further steps can and should be taken to preserve the identity, grade and standard of that grain all the way from the farm to the ultimate world market.

It sometimes happens that a man's usefulness ends when his salary is raised.

An elephant's bath requires 150 pounds of soap and more than \$100 worth of the purest Indian oil.

Over \$16,000,000 worth of damage was done last year by fire in the British Isles.

The total acreage under pasture in Canada in 1928 was 9,528,943 acres.

Simple Precautions Against FLU Sore Throat —

— The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

Kaiser Cost Germany Millions Every Year

Abdication Has Saved Country Large Sum In Salaries

It has been figured that Germany in the last 10 years has saved \$125,000,000 in salaries to the former royal rulers of the empire. Before the war the Kaiser cost Germany \$5,264,000 a year. Then came three kings—of Bavaria, Saxony and Wurttemberg—and seven grand dukes, who cost Germany more than \$5,000,000. Besides these royal "appointments" the other expenses of the imperial system brought the annual expenditures up to \$12,500,000. Of course there had to be big armies and generally increased cost of royal show under the royal government but this further cost could hardly be estimated.

PARENTS UNDERSTOOD THIS BABY'S LANGUAGE

"We thought we were going to lose our baby, teething," says a Kentucky mother. "He couldn't digest anything and was getting thinner every day. After one of his fretful, crying nights, I thought of Castoria and got some. A few drops made him comfortable, and after a few doses, he seemed like a different baby." Doctors everywhere recommend purely vegetable, harmless Fletcher's Castoria for colds, constipation, colic and other ills of babies and children, and millions of mothers know its gentle influence is best. Avoid imitations. The Fletcher signature is the mark of genuine Castoria.

Alberta Dairy Products

Exceeded In Value Twenty Million Dollars For 1928 Season

Alberta's dairy products for 1928 exceeded in value \$20,000,000, which represented 8.3 per cent. of total agricultural production, Dr. C. P. Marker, dairy commissioner, told delegates at the recent dairymen's convention in Edmonton. There was a marked improvement in the grade of cream supplied by producers and in the quality of creamery produced, he declared.

A DANGEROUS MONTH FOR THE BABY

Mothers Always Dread the Blustering March Days

No month of the year is so dangerous to the welfare of little ones as is March—the month of quickly changing weather. One day is fine, the next cold and blustering. One day dry, the next wet and disagreeable. In spite of all precautions the little ones will take colds and these colds often lead to more serious troubles. Mothers, when the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent the more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe—just like having a doctor in the house. The Tablets are a gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or a sour stomach.

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Dairying In Okanagan District

The North Okanagan District is turning increasingly to the dairy industry with profitable results. Cream cheques totalling \$250,000 were paid out during the past year.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health-giving in their effects.

By living on board private yachts moored on the River Thames, near Westminster, a number of Londoners escape paying rent, rates and house duty in return for a mooring fee of three guineas a year.

Minard's Liniment for the Grippe and Flu.

Education By Mail

B.C. Rural Correspondence Courses Cost \$13 a Pupil

Rural correspondence school courses in British Columbia, cost \$13 a pupil, while the ordinary public school student costs the province \$70, according to information tabled before the public accounts committee of the Legislature.

The committee was informed that 350 pupils in outlying parts of the province obtained their elementary school education by means of the correspondence classes.

Area Under Pasture

The total acreage under pasture in Canada in 1928, was 9,528,943 acres.

Reduce Aviation Expenditures

British Government Decides To Lessen Appropriation For This Year

British estimates for government aviation expenditures during 1929, presented to the House of Commons by Sir Samuel Hoare, air secretary, total \$81,000,000. This is a decrease of about \$250,000.

In connection with the estimates, Sir Samuel said the new airships, the R-100 and the R-101, should be completed early in the financial year.

"The two airships should begin the trials in the spring and I hope to see the flights to overseas bases, such as Montreal and Karachi, achieved during the year," Sir Samuel added.

NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay, no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

HOUSE PASSES BILL FOR C.P.R. BRANCH LINES

Ottawa.—The Canadian Pacific Railway bill for branch line extensions completed its passage in the House of Commons, when it was given third reading. The bill emerges intact, with the exception that the proposed Sutherland-to-Melfort line in Saskatchewan was eliminated in the commons committee. The bill now goes to the senate.

The measures authorizing the Canadian National branch line developments still stand for third reading on the order paper in the commons. The bills have been held up on account of the budget debate, but will likely soon be accepted and also passed on to the senate.

The C.P.R. bill, being a private one, came up during the hour in the house set aside for private members' bills. It passed with little or no discussion.

The house also quickly gave third reading to the bill which will incorporate Barclays Bank (Canada) without amendment.

Radiogram Received From the Antarctic

Welsh Society Of Saskatoon Gets
Message From Scientist With
Byrd Expedition

Saskatoon.—A radiogram from the Antarctic, relayed by mail by the New York Times, has been received by Thomas Phillips, Saskatoon, from Frank Davies, in which the latter wishes the Saskatoon Welsh Society a joyous reunion for 1929.

Mr. Davies, at one time an instructor on the University staff here, and now a scientist with Commander Richard E. Byrd, in his expedition to the South Pole, sent the message on February 28 from "Little America," Antarctica, and it was received in New York on March 2, too late for the local celebration, which took place March 1. The document will nevertheless, form a valuable item in the archives of the Welsh Society in Saskatoon.

Telephone Service Increased

Hundred Line Extension Has Been
Completed At The Pas

The Pas, Man.—It was announced by H. Coddington, commercial superintendent of the Manitoba Telephone system, that arrangements for an other hundred line extension on the switchboard in The Pas exchange are complete.

"When we took the plant over last July, we had 237 subscribers," said Mr. Coddington. "Today we have 395, and it looks as if we will go over the 400 mark within the next two months."

"We intend to extend the long distance facilities north to Flin Flon during the present season and we have set aside \$19,000 for this work."

Mr. Coddington said that the long distance business originating in The Pas was far beyond expectations.

Pilot Has Freak Accident

British Airman Had Propeller Shattered
In Encounter With Hawk

Chico, Calif. Victim of a freak airplane accident. Flying Cadet R. G. Hamilton, R.F.C., was forced down in a ploughed field near Cana, six miles north of here, with the propeller of his pursuit plane shattered the result of an aerial encounter with a hawk.

Cadet Hamilton, attached to the British airplane carrier, H.M.S. Hermes, now at San Diego, was flying from that city to Vancouver, B.C., when the freak accident occurred.

Prove King Is Recovering

London, England.—The papers are giving great prominence to the first photographs of King George, taken since his arrival at Craigwell House. They show His Majesty seated in a bath chair in the grounds with Queen Mary standing beside him. The photographs lend confirmation to recent reports of the King's favorable progress toward recovery.

W. N. U. 1777

Wants Canada To Develop Helium Gas

Operation Of British Dirigible Would
Necessitate Obtaining Gas Here

London, England.—Development of helium gas for use in airships in Canada is a possible development of the building of the giant dirigibles for trans-oceanic transport by the British air ministry, Sir Samuel Hoare, air secretary, intimated in the House of Commons. He said it was hoped to approach the Canadian government later to see whether it would be possible to produce helium in Canada as the gas is produced and used extensively in the United States.

The two airships, he hoped, would be ready to take the air by spring or early summer.

If the home tests are successful it is proposed to make a flight to Egypt and India, and then to Montreal.

Toronto.—Large quantities of helium gas can be produced from the gas wells of the Bow River Valley, of Alberta, to the south of Medicine Hat. The production of helium in commercial quantities was first accomplished in Canada during the war as a result of researches made by Prof. J. C. McLennan, of the University of Toronto.

Helium is non-inflammable and though less buoyant than hydrogen, is much safer.

Fire Sweeps London Factories

Heavy Loss In District Occupied By
Paper Houses

London, England.—The biggest fire that London has experienced in a long time caused heavy damage on the south shore of the Thames in a district occupied by paper and tin factories. Three hours after the first alarm, flames were shooting 100 feet into the air, a whole series of the factories being ablaze.

A large part of London was illuminated by the blaze. Scores of fire engines and hundreds of firemen were trying to prevent further spread of the conflagration. They managed to avert danger from neighboring workmen's homes, although the families fled.

One of the losses in the fire was 400 tons of newsprint paper.

Heavy Snow In Colorado

Two-Day Storm Isolated Small
Towns Near Denver

Denver, Colo.—Small towns and villages in the Rocky Mountain region were marooned by snow that covered highways to a depth of three feet in places, following a two-day storm.

The storm area extended northward to the Canadian border, spreading a white blanket over Montana, Colorado and Wyoming.

A group of high school boys rescued Frank Nelson, 74, from his cabin near Mount Almagree, fifteen miles from the famous Cripple Creek mining district of Colorado, where he had been marooned without food.

The Disarmament Question

Britain and U.S. Must Agree In
Matter Says Balfour

Buffalo. The question of Anglo-American relations overshadows all other political topics in the interest of the British public, according to Sir Arthur Balfour, chairman of the British Industry and Trade Commission, which is conferring with the steel men.

"We feel, in England," he said, "that unless our two countries can work in agreement, the cause of disarmament is lost. We will lose the respect of continental powers and another war is on the way."

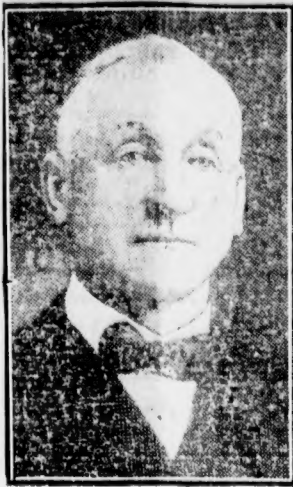

Was Hero Of Gallipoli

London, England.—General Sir Charles Newsham, who at an advanced age, served in the Gallipoli and Saloniki defences and was slightly wounded and mentioned in despatches, is dead at the age of 64 years. He retired in 1924.

Noble's Resignation Accepted

London, England.—The Exchange Telegraph Company said it had been officially announced at Rome that General Umberto Nobile, commander of the ill-fated Italia expedition, had resigned his rank and office. The resignation was accepted.

SHOWS RECORD SURPLUS

Hon. James A. Robb, minister of finance, who introduced the budget in the House of Commons, on March 1 in which he trimmed down taxes, reduced debt and revealed a record surplus of \$69,782,000.

Expect To Complete Railway In April

Line To Churchill Being Steadily
Pushed Onward

Winnipeg.—Within sight of the sea, steel laying workers are pushing steadily onward to Fort Churchill, terminus of the Hudson Bay Railway, and early in April, unless the unforeseen occurs, will have completed their work.

Telegraph communication with Churchill was established for the first time on March 12, and steel is now within 12 miles of the port, stated H. A. Dixon, regional chief engineer of the Canadian National Railways, here. Construction material for work at the port already is en route north.

Many Applications For Assisted Passage

Approval Given Large Percentage Of
Prospective Settlers

London, England.—In the thirteen months ending January 31, 1929, 6,583 families and 28,468 individuals not included in families applied for assisted passage to Canada. Right Hon. L. C. M. Amery, secretary of state for the Dominions, told the House of Commons. Of these, 2,772 families, and 18,718 individuals had been approved and 2,140 families, and 15,381 individuals had sailed for Canada. These figures did not include the special scheme under which the party of British miners went to Canada as harvesters.

Left Large Estate

Toronto.—William Kellaher, ex-cabman of Toronto, who died recently at the age of 83 years, left an estate valued at approximately \$200,000. Mr. Kellaher, who arrived in Toronto penniless more than 40 years ago, willed \$150,000 to local orphanages.

"THE TEN-POUND SMILE"

A happy group of Britishers who have just arrived in Canada under the new ten-pound fare. Asked for comments as to the possible movement under this reduced rate, officials of the Department of Colonization and Development, Canadian Pacific Railway, say: "While we are hopeful, of course, that, consistent with the needs of the Dominion, many will take advantage of the opportunity afforded by the new rate, it is far too soon to state that much may be expected. Indeed there are indications that, apart from the first stimulus arising from the novelty of a new rate, the majority taking advantage of it are not looking for agricultural opportunities, and cannot therefore be readily placed through existing colonization organizations. The movement as a whole, therefore, may prove to be disappointing."

Auto Driver Killed Trying For Record

Machine Out Of Control Crashed
Into Sand Dunes

Ocean Speedway, Daytona Beach, Fla. Lee Bible, 42-year-old Daytona Beach garage mechanic, rode to a spectacular death in the 36-cylinder racing car with which he was vainly attempting to break the world's speed record of 231 miles an hour, made by Major H. O. D. Seagrave, of England. Speeding at more than three miles a minute, the machine got beyond his control and crashed into the sand dunes, striking and killing also Charles Traub, a news reel cameraman. Bible left a wife and two children.

The accident, one of the most tragic in the history of beach racing here, occurred just after Bible crossed the measured mile course at a speed of 202 miles an hour, and was witnessed by a crowd of approximately 20,000 spectators who lined the sand dunes for miles.

To Fight "Red" Menace

Manitoba Command Canadian Legion
Asks Action Against Communists

Winnipeg.—Eradication of Communism from Canada and the prosecution of those responsible for its spread, was demanded in a resolution unanimously adopted at the fourth annual convention of the Manitoba command, Canadian Legion, British Empire Service League. The convention also urged that the Communists be prohibited from holding meetings in public schools.

Communists, the delegates declared, were attempting to instill their doctrines into the minds of children and the newly-arrived immigrant. Communist ideals were being circulated in literature and songs "grossly blasphemous, seditious and contrary to the teachings of Christianity."

They would "demoralize youths and would lead to ultimate bloodshed, revolution and the breaking down of all religious and civil authority."

Want Police Force Similar To Mounties

Idea Suggested To President Hoover
To Stop Smuggling

Washington.—A federal constabulary, similar to the famous Royal Canadian Mounted Police, has been suggested to President Hoover as a means of ending liquor smuggling across the Canadian and Mexican borders.

The constabulary would deal not only with rum running, but also with immigration smuggling, and the ordinary run of merchandise smuggling operations now under the eyes of the customs service.

Russian Miners Killed

Moscow.—Twenty-seven miners were killed when a crowded cage fell in a shaft near Gorlovka, in the Donetz coal basin.

BRITAIN HAS NEW SCHEME TO HELP SETTLERS

Ottawa.—A new assisted passage scheme to provide Canadian farmers with British workers has been announced by the Department of Immigration. Young men in the British Isles who have not been able to find the present £10 steamship fare, are to be recruited and after examination by Canadian immigration authorities will be lent their passage money by the British government. The movement will start within a month, it is expected, and several thousand men will probably be brought out this year.

The proposal announced will embrace a limited number of unemployed miners, physically fit, but not necessarily of the skilled farmer class, who come under the present assisted passage scheme.

A survey of the various provinces is at present being conducted by the department and the number of men to be assisted will depend upon the demand for agricultural workers.

The new scheme is explained to be quite different from the miner-harvester scheme of last year. The men must demonstrate a desire to settle permanently in this country, and no provision is made to provide return fares at the end of the harvest. None of the expense is to be borne by the Canadian Government.

While applicants need not have farm experience, they will be carefully chosen with regard to physical fitness and willingness to accommodate themselves to conditions.

The new program is to be supplementary to the various assisted passage schemes already in effect. The most important of these is the £2 steamship rate for agricultural families, with free passage for children.

Estimates For British Air Force Criticized

Kellogg Pact Has Not Changed
Policy, Says Labor Member

London, England.—Joseph M. Kenworthy, Laborite member of the House of Commons, bitterly criticized the British Government in debate upon the 1929 estimates for the air force. He said the government's estimates bore no trace of any change in policy since Britain signed the Kellogg anti-war treaty.

Kenworthy criticized the "enormous cost" of the air station at Singapore and also the utilization there of young airmen and "expensively trained cadets."

"I could have understood it two or three years ago, before the signature of Great Britain was affixed to the Kellogg anti-war pact," he said.

A total of \$2,500,000, a fifth of which is to be spent this year, he said, is to be devoted to the Singapore station.

"If the station is merely for defence of a new dockyard, that is an extraordinarily large sum," he said.

Sir Samuel Hoare, secretary for air, replied that the expense is part of the general expenditure at the Singapore base, and that Singapore would be capable of handling the aerial side of any operations of the naval base.

"Even if there were no naval base at Singapore, the air base would be necessary," Sir Samuel said, "as it is the cardinal point of our communications."

Wins McKee Trophy

Award For Meritorious Service Given
To Western Air Ace

Ottawa. Captain C. H. "Punch" Dickens, commercial pilot of Edmonton, Alta., has received the McKee trophy award for 1928, for meritorious service in the advancement of aviation in Canada. During the twelve months he spent a total of 1,035 hours in the air, a remarkable achievement when consideration is taken of the fact that Dickens performed most of his duty in the northern sections of the Dominion.

Announcement of the award was made by Colonel J. L. Ralston, minister of national defence.

WE LIKE TO GET THE NEWS

The main aim of the weekly newspaper, as the name implies, is to give news of its own district. It may have other aims, such as to give merchants a chance to tell of their goods in its columns or influence public opinion through its editorials; but first of all it must give the news. Some of this news is not easily obtained and no editor can cover it without assistance. Especially is this true when you have visitors. Many ladies think persons are the most interesting reading in the whole paper. Your visitors are usually glad to have their names appear, so send them in. Sometimes people come in and give the hapless editor that they are asking a favor when they want to insert the names of their friends who have been spending a few days with them. No person need feel that way about giving us news items, for we are glad to get them all.

5000 FACTS ABOUT CANADA

The 1929 edition of that popular annual, "5000 Facts About Canada," edited

by Frank Yeigh, the well-known Canadian author and publicist, is now off the press and contains a wealth of material that presents the stirring story of our national progress in crisp concrete form. Many new features mark this issue, such as the expansion during the ten years since the armistice, as well as the remarkable advance made in the last 12-month's period. The booklet "Sells Canada" most effectively and is widely distributed for that purpose, while it is invaluable to any Canadian who wishes to know his own country. The fifty chapters of contents tells the all-Dominion story in a nut shell. Copies may be had at 35c from leading news dealers or from the Canadian Facts Pub. Co., 588 Huron St. Toronto.

YOU'LL NEVER BE SORRY

For doing your level best.
For living a pure life.
For looking before leaping.
For being kind to the poor.
For thinking before speaking.
For standing by your principles.
For stopping your ears to gossip.
For being generous to an enemy.
For asking pardon when in error.
For being square in business deals.
For giving an unfortunate person a gift.

For promptness in keeping your promises.
For putting the best construction on the acts of others.

With ideal weather the past couple of weeks the land is practically dry and free from frost and a few of the farmers in the district are already harrowing their land and getting it ready for the seed. This is the earliest that land in the Carbon district has been worked and many do not know just to make of the situation. If seeding is done too early they are afraid that the new grain will be in danger of the May frosts, while on the other hand if the seed is in the ground it will get the benefit if the rains if this should prove a dry year.

The roads throughout Alberta and especially in this locality are in excellent condition.

One 22-40 Hart Parr Tractor in use two years \$1000 less than a new one, in first class order.

One Oil Pull Tractor 14-28 \$400, in good working order.

Terms given to reliable parties.

ALEX REID, CARBON, ALTA

THE LITTLE OLD HOME TOWN NEWSPAPER

It's no sixteen page edition that expresses big men's views, And it's not filled up with pictures nor with telegraphic news;

It isn't printed daily with an extra every hour,

And the editor's not bragging of his influence and power;

It may have its faults and errors, but these I will forgive,

For it's printed in the country, way back where I used to live.

It's only issued weekly and it's not made up for style,

But when it comes I gladly put the daily by awhile.

I don't read on its pages what the wise and great men say,

But I see that "Silas Jiggers brought some wood to town today."

And that "Grandma Parks is better" or that "Old Bill Jones is dead"

And it tells just what the parson in his Sunday sermon said.

I see again the faces of the friends I used to know

In the dim and distant fancies of the happy long ago.

And I read up in the corner that the

fall winds howl and blow, And that "Uncle Nathan Smith predicts an early fall of snow."

Or that "Our debating club has planned a social for next week.

At which our fellow townsman, Abner Brotherton, will speak."

There are never Learned essays on the questions of the day,

But it says that "folks are looking for another rise in hay."

I see no glaring headlines of the last election fight,

But it says that "Tom Shaw marries Ella Edgerton tonight."

And my thoughts somehow grow fonder when the old folks' names I see,

Telling that "Reverend Thomas Tomkins was invited there to tea."

It may be crude and homely, that same little country sheet,

and the make-up of its pages may be rather obsolete;

It is damp when I unfold it, and the print is sometimes blurred,

Yet it's always more than welcome, and I read it every word.

And no reading to a city man a greater joy can give

Than the little country weekly printed "where I used to live."

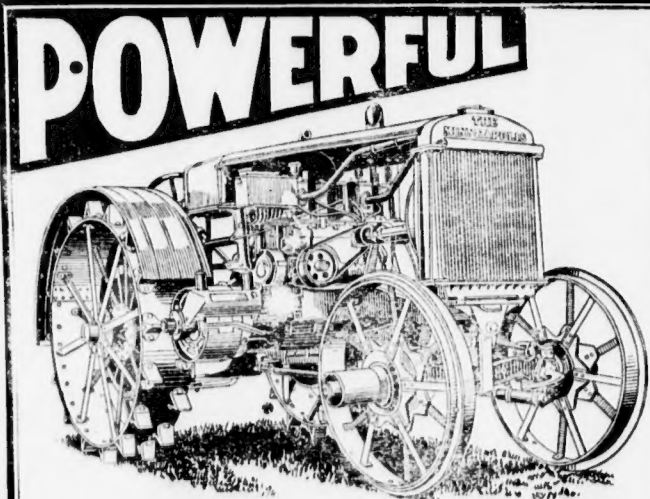

Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT

THE SHORTEST THING IN THE WORLD

No, not a gnat's eyelash, nor a mosquito's whiskers—PUBLIC MEMORY

You may have been in business for fifty years and the people know about it. But they forget—new customers are being born every minute and they grow up and have to be told.

A Note to Merchants

Unless you keep telling them by advertising what you have to offer them, the fellow who has only been in business fifty weeks, and who advertises intelligently will prove to you the truth of it.

YOU MUST TELL THEM TO SELL THEM !

LITTLE ITEMS OF LOCAL INTEREST

J. A. MacDonald was a Calgary visitor this week and returned Monday with a new Essex sedan.

John Leiske of Beiseker was a Carbon visitor on Tuesday.

S. F. Torrance is in Calgary this week attending the Hall Insurance Convention.

Thos. Johnson has purchased a Chevrolet Sedan from S. J. Garrett's Garage.

I. Guttman motored into Calgary on Tuesday.

W. H. T. Olive was a visitor to Calgary on Monday and while there he purchased new equipment for the garage.

W.A. Frohberger of Strathmore was a visitor in Carbon on Tuesday. He is negotiating for a farm in the Carbon district.

Mr. and Mrs. Jas. McLeod left on Friday for their new home in Kelowna B. C.

Mr. and Mrs. L. Poxon and Miss Dorothy Annear motored to Calgary this week.

Don't forget the Auction sale at the home of Mrs. J. J. Hilstob, Carbon, on Thursday next, March 28 at 2 p.m.

A sale of work and home cooking will be held by the members of the Carbon W. A. in the Farmers' Ex-

change hall on Saturday, March 23, at 3 p.m. Tea will be served from 3 to 6 p.m.

The Busy Bees will hold a tea in the Carbon Church on Saturday. There's lots of room for all to come. So we want all Carbon and then some.

The tea will be held sharp at three. So come and enjoy it there with me.

Snicklefritz ----

From Persia comes reports that nine brides in ten know nothing of household management. But why go to Persia to make the discovery.

Poor Aggie came near getting herself into trouble last night. She started, according to her usual habit, to look under the bed—

"Well?"
"Well, her bed at the time happened to be an upper berth in a sleeping car."

Fond Wife—Do you know that you haven't kissed me for eight days?
Absent-minded Professor: No? Dear me, how annoying. Who have I been kissing?

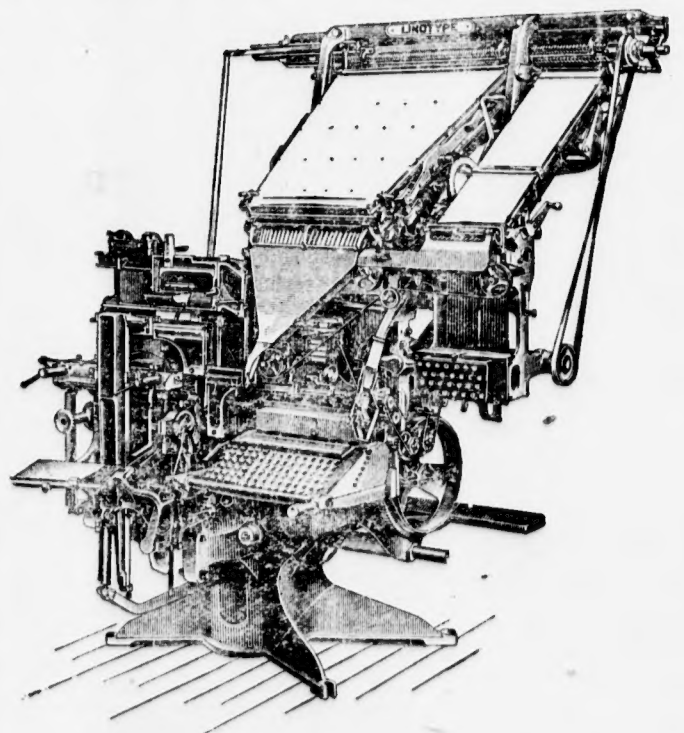

The Meenister: So you've decided to marry again, Mr. McPhailson?
McPhailson: Aye, an' ah would verra much like to know how much ye'll allow me on the old wuddin'?

"That's an old car of yours, Tom. How many summers has it seen?"
"I don't know how many summers, but it has had 15 springs since I bought it."

"And is her daughter happily married?"
"Oh, yes; her husband is scared to death of her."

Have It Done the

Linotype Way

Here and There

257
To meet increased trade and passenger traffic on the waters of the Pacific coast, two new vessels of the "Princess" type for night service between Vancouver and Victoria have been ordered by the Canadian Pacific Railway, it has been announced by Captain C. D. Narousoos, manager of the British Columbia Coast Steamship Services.

A new carrier and telephone system for Canadian Pacific purposes will shortly be in operation across Canada, it was stated recently in Winnipeg by Mr. John McMillan, general manager of the Canadian Pacific Railway Telegraphs, who was on a tour of the west. This greatly supplements the facilities already used.

Since the world war the Canadian Pacific has constructed 1,186 miles of new railway track, most of which opened up new territories and developed new areas of country for settlement and industrial activity.

An average of twenty-seven pounds of butter is consumed each year by every man, woman, and child in Canada, it has been discovered by federal statisticians, making the Dominion the largest consumer of butter in the world. The per capita consumption is ten pounds greater than that of the United States. No light is thrown upon the number of slices of bread buttered by hungry Canadians.

The sweetest news received in Canada for some time was the report from the British Industries Fair in London that twenty minutes after its opening an order had been placed for \$50,000 worth of honey.

Santa Claus must be establishing a stable somewhere in this country as it is reported that a consignment of 300 live Swedish Reindeer was recently shipped to Canada. It was the largest shipment of these animals ever to be made.

The recent announcement that a new Dominion Atlantic Railway hotel is to be built at Kentville has been received with enthusiasm, not only among commercial men but the general travelling public as well in Nova Scotia. At the same time the Dominion Atlantic Railway is the object of a good deal of favorable comment in the part it is playing in developing Nova Scotia as a tourist ground and the Annapolis Valley.

A taxidermist must be a skilled sculptor and a student of anatomy, said Mr. G. L. Pap, well known western taxidermist and sportsman who visited Montreal recently.

To give a true and life-like appearance to specimens a full-sized clay model is first constructed. From this a plaster cast is made and a papier-mache model formed in turn from this. The final shell over which the skin of the animal is carefully glued shows every feature and conformation of the animal's body.

WORLD HAPPENINGS BRIEFLY TOLD

A survey of Fort Churchill will be undertaken immediately by the provincial government for the purpose of laying out a model townsite at Manitoba's seaport.

Charles Angers, former member of parliament, is dead at Quebec, at the age of 71 years. He represented Charlevoix County, at Ottawa, in 1896. He was a Liberal.

Regina's assessment for 1929 will be two and a half million dollars greater than the amount upon which 1928 taxes were struck, it was estimated by R. J. Westgate, city assessor.

The Polish newspaper Rzeczpospolita says it has learned Pope Pius will begin a tour early in 1930, visiting Trieste, Zagreb, Budapest, Cracow, Warsaw, Vienna, Munich, Brussels, Dublin, Paris, Madrid and Lisbon.

Bankruptcy proceedings have been instituted against Princess Victoria, sister of the former Kaiser. The Princess, who is living in seclusion at the palace in Bonn, Germany, declined to make a statement. The first meeting of her creditors was called for April 4.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to irradiate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Not only can you astonish your friends with the French you learn in 19 Easy Lessons; You can astonish a Frenchman.

It Will Prevent Ulcerated Throat. At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Pupils in Scotland have to get through about three times as many books in the school year as London school children.

Use Minard's Liniment for the Flu.

Flashes of manufactured lightning 29 feet long have been produced at the Pittsfield (Mass.) laboratory of the General Electric Company.

BILIOUSNESS RELIEVED QUICKLY

CARTER'S LIVER PILLS

This Purely Vegetable Pill quickly starts the bile flowing, gently moves the bowels, the poisons pass away, the sour and acid stomach sweetens, and biliousness vanishes. Electric Power In Alberta

Transmission Lines Spreading Over Province At a Rapid Rate

The rapid rate at which electric transmission lines have been spread over the province of Alberta, especially during 1928, is indicated in a recently issued government report. A network of high tension lines now radiates east and west, north and south over the central and southern part of the province. There is a continuous line from Edmonton in the north to Magrath south of Lethbridge, in the south, with the exception of the gap of less than thirty miles between Millet and Ponoka still to be closed.

One power company, with headquarters in Calgary, is operating 332 miles of 66,000-volt lines and 839 miles of 13,200-volt lines. Of this mileage approximately 50 miles of 66,000-volt lines, and 474 miles of 13,200-volt lines were built during 1928, and the company's territory in the north now extends as far east as Wainwright and Hardisty.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

Sugar Beets a Paying Crop

Sugar beets proved the best-paying crop in the Taber-Barnwell Irrigation district last year, returning an average of \$69.59 per acre. Alfalfa came second, with \$25.85 per acre, and wheat third, with \$23.27. The average production per acre in the project was worth \$28.97.

SPARKLING EYES AND ROSY CHEEKS

The Birthright Of Every Girl With Rich, Red Blood In Her Veins

The dull eye that goes with bloodlessness is a sure sign of misery and weakness. Anaemic—that is bloodless—girls and women have dull, heavy eyes with dark lines underneath. But this is not all. Anaemia works havoc all through the system; girls grow painfully weak and irritable; they are breathless and incapable of much exertion, while older women who are anaemic complain of being "never really well."

There is only way to bring brighter, better health for pale, pining girls and women. That way is to invigorate the body with new blood—rich, healthy blood that imparts strength and restores the bright eyes and rosy lips of perfect health. That Dr. Williams' Pink Pills make now rich blood and bring health and strength has been proved in thousands of cases. One such case is that of Miss Margaret White, Parry Sound, Ont., who says:—"I was attending high school and as examinations were coming on I was working hard, and began to feel easily tired, and often had severe headaches. When I sat down to a meal I felt that I did not want to eat. I went to a doctor who told me that I was anaemic. I took his medicine, but made little progress. Then my aunt, who had great faith in Dr. Williams' Pink Pills, got me a supply and I began taking them. I soon noticed that my appetite was improving, that the headaches came less frequently and that I was not so easily tired. I went away to camp for my holidays, taking the pills with me and taking them regularly. The result was that I returned home a healthy girl, my weight increased, my cheeks grew rosy and every ache and pain had vanished. I strongly recommend every weak girl to give Dr. Williams' Pink Pills a fair trial."

If your dealer does not keep these pills you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Tested Rocket Sled

A "rocket sled" was tried out at the Schleissheim aviation grounds by Max Valler, inventor of several rocket vehicles. The sled weighs 240 pounds and can be equipped with eight rockets. Valler, using only two rockets, made fine speed on level ground. Spectators tried to visualize the speed that could be made down a snowy slope under the impetus of the rockets, but gave up the attempt before reaching definite conclusions.

SUNDAY SCHOOL LESSON

MARCH 24

STEWARDSHIP AND MISSIONS

Golden Text: "It is required in stewards, that a man be found faithful."—Corinthians 4:2.

Lesson: Genesis 12:1-3; Deuteronomy 8:17, 18; Jonah 3:1-10; Malachi 3:7-12; Matthew 28:18-20; Acts 1:6-8; 13:1-3; 26:12-20; Romans 1:14-16; 1 Corinthians 16:2; 2 Corinthians 8:1-15; 9:1-15.

Devotional Reading: Psalm 9:1-8.

Explanations and Comments

Stewardship In Regard To Missions, Acts 1:6-8.—The apostles met Jesus on the Mount of Olives, and there they asked Him if at that time He would restore the Kingdom to Israel. Their question shows how well-nigh impossible it still was for the apostles to rid themselves of the common Messianic expectation of the Jews, that the Christ would rule over a Jewish nation independent of Rome and herself dominant, politically and religiously, over the other nations of the earth. "It needed the Pentecostal outpouring of the Holy Spirit to teach the apostles that Christ's Kingdom is not of this world."

"It is not for you to know the times or seasons, when the Father hath set within His own authority," was the answer of Jesus. "It implies that He will restore the Kingdom to Israel; not, however, to Israel after the flesh, as the apostles imagined but to the Israel of God, i.e. to Christian believers of every nation, by making Christianity the dominant religion."

"O God, I pray Thee for the childlike heart, That can enjoy—all vexing things apart—

The beauties Thou in heaven and earth dost show, Nor fret myself with things I do not know."—Babcock.

And then Jesus promised power through the coming of the Holy Spirit, and gave His great commission: they were to be His witnesses both in Jerusalem and in all Judaea and Samaria, and unto the uttermost part of the earth. Some one has called these four missionary ones parousia missions, state missions, home missions, and foreign missions. The Acts records the story of how the apostles carried out the commission. "The uttermost part of the earth" is represented by Rome, the capital of the Empire, the place where, as Irenaeus said, "All met from every quarter."

"This message always hurts me when I think of the vast tracts of earth that have never heard the name of Christ."—G. Campbell Morgan.

Rub It In For Lame Back.—Brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

A cast off railroad locomotive with its wheels removed, heats a Norwich, Connecticut passenger station. It performs efficiently, supplying heat to the train shed, station and cars in the yard as required.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

An armored vest and a breast machine gun, which starts shooting when the wearer raises his hands at the command "hands up," is a new creation for bank guards and night watchmen.

CRUMBLY TEETH

Help your children to have sturdy bodies, sound bones and strong teeth. Give them

Scott's Emulsion

rich in vitamins. It serves the needs of childhood equally as well as it does grown people.

Scott & Bowne, Toronto, Ont. 25-60

A Great Canadian

Prof. Shotwell Was Close Adviser Of Woodrow-Wilson and One Of the Authors Of Kellogg Peace Pact

Mr. E. J. Garland and the Prime Minister deserve thanks for disclosing to Parliament recently that one of the real authors of the Kellogg Peace Pact is none other than a Canadian, Prof. Shotwell, of Columbia University. Canada has given many notable figures to the industrial, commercial and academic life of the United States. It is doubtful whether she has given anyone who has made a more distinguished contribution to the republic than Prof. Shotwell. Born in Canada and educated in Canada, Prof. Shotwell stands today as one of the most eminent figures in the whole scholastic field of the United States. His name, indeed, is known wherever international or world politics is discussed; the pity is that it is not better known among his own countrymen here in Canada.

Prof. Shotwell first arrested world attention when he became one of the close advisers of Woodrow Wilson in the sphere of foreign affairs. When the Peace Treaty of Versailles was in the making, he was in Paris; and later on, in pamphlets and numerous volumes and newspaper articles and lectures he has dealt with international questions with a scholarship and sure grasp of realities rivalled by few of his contemporaries.

Prof. Shotwell, in fact, must be ranked among the greatest of living Canadians. The pity is that, like many another, he is an exile from the land his talents could serve so well.

Nervous and Run Down The Least Noise Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so.

"A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Western Progress

The thriving city of Regina established a notable record in 1928, in attracting new industries. During the last past year 12 important industrial concerns located in Regina. They are said to have expended about \$5,000,000 in sites, buildings and equipment, and they will employ well on to 2,000 men. Housing accommodation was built last year for 1,000 families, and building has not yet caught up to the demand.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

Change Bread To Cake

Here's the Magic Recipe

Cut slices of day-old white bread $\frac{3}{4}$ inch thick. Trim off crusts. Cut each slice into strips $\frac{3}{4}$ inch wide by 2 inches long.

Spread these strips on all sides with Eagle Brand Sweetened Condensed Milk, covering bread well.

Roll strips in dry shredded coconut, broken very fine. Place in pan and brown very delicately on all sides under low gas flame, or toast on a fork over coals.

Delicious little coconut cakes result—made from bread. Taste just like Angel Food cake.

Try them! This and dozens of other magic recipes are found in the Eagle Brand Cook Book "New Magic in the Kitchen." Write for your free copy to The Borden Co., Dept. BW, 140 St. Paul St. W., Montreal, mentioning this paper.

Take Daylight From Air

Reproduction Of Light Said To Be Next Wonder

A radio aerial draws radio waves out of the air. Radio treats essentially with sound. Absorption and reproduction of light, by a method strikingly similar to radio is likely to be next. R. T. Gee, London, Ont., inventor, president of the R. T. Gee Company, Limited, manufacturer of electric light bulbs, is the discoverer. The process, he states, is to be soon available for general use. When it is introduced, it is stated in scientific circles, it will revolutionize illumination, which is today chiefly created by electricity. For, in addition to drawing energy out of the air and reproducing it, Mr. Gee's method provides for the storage of such energy until it is needed. This means, it is explained, that the aerials at work in the daytime will not only absorb but also store sunlight for reproduction at night.

Too Much ACID

Man, people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

CHAPTER XVI.—Continued

From up the mountainside came a drumming roar and the rending crash of trees as the fire undermined their roots. Sparks from burning tree-tops crossed the fire-break and started other fires. To combat these, water had to be carried up the steep hillside in pails. Andy was among those delegated to this arduous task. For hours he staggered from stream to hill and back again with a brimming pail in either hand. Scorched by sun and fire, the perspiration streaming down his face and stinging his eyes, the little hero stuck gamely to his task.

"I fied on this 'ere job as a cook," he grumbled, "not as a blinkin' water-spout. Strike me pink, if the water I've carried today was sprinkled in 'ell the devil'd be out of a job. Oh, well," he added resignedly as he filled his pails and turned to again ascend the hill, "as Methusalem said, 'Every little bit 'elps!' These two buckets myke exactly four million, two 'undred and six gallons that I've carried this d'y." At this instant his foot caught in a root to send him sprawling on his face rolling down the mossy hillside, the pails clattering after. He lay where he had fallen, flat on his back, with arms outstretched. "There," he soliloquized, "that was the wisp of straw that broke the elephant's back. To 'ell with the fire. Let the blighter burn."

Wilkinson came wearily down the hill. His face was blackened and blistered, his hat gone, and his shirt a network from holes burned through the cloth by flying sparks. He sprawled on all fours by the stream, drank sparingly, then plunged his face in the cooling waters.

"'Ello, Wilkie!" shouted Andy, "ow would you like to 'ave a cold bottle of beer?"

Wilkinson seized a stone threateningly and glared at his tormentor. "Men have been killed for less," he growled huskily.

"I s'y, Wilkie," grinned Andy, "these Forestry jobs are a snap. Do

you 'ave the nerve to collect a salary?"

The district ranger was too tired for speech. His swollen face puckered in a smile and he passed on up the hill, and Andy came stiffly to his feet and resumed his never-ending task.

Connie brought reports that the fire was being held on the north and east. The fire-break on the south held, but spot fires were kept in check only by the almost superhuman efforts of the fire-fighters.

Forest fires reach the peak of their intensity while the sun is hottest. With darkness the wind subsides, and, especially in the mountains the heavy dews are a never-failing help.

The sun, showing blood-red through the smoke, now sank behind the hills and a blessed coolness filled the air. The fire smouldered along the fire-breaks, but the dreaded sparks were not flying. The trembling roar diminished to a steady crackling where fallen trees were being steadily consumed.

The fire-fighters, their shoulders drooping, and wavering from sheer weakness, plodded down the hill for well-earned food and rest.

"You'll have to be at it again at daylight," said Wilkinson grumpily. They nodded a tired assent. Wilkinson and Donald with twelve men patrolled the fire area throughout the night.

The next morning broke sullenly in a dull haze. As the first streaks of light heralded the coming of the new day, the fire-fighters again took up their posts. Men from the other mill arrived, and another day of battle with the fire demon was begun. An attempt was made to check it on the west front, high up the mountainside, where the fire had crept through in the night to a small level plateau. At ten o'clock the wind came suddenly, and with it the fire broke through on the south-west corner with a deafening roar and rushed through a stand of dead trees with ever-increasing speed.

Donald shouted a quick cry of warning to the men who were in danger of being cut off by this break. They came on the double quick just in time, as a lurid wall of flame shot up the hill over the path they had traversed.

"Are the men all out?" questioned Donald.

"Andy isn't here!" said one of the men excitedly.

Donald seized the speaker's arm. "Was Andy with you?"

The man nodded.

Donald's face set in grim lines. Whirling quickly, he ran straight toward the line of fire. With a bound Connie was on her horse and after him at swift trot. As he neared the screen of smoke, Pegasus changed his gait to that of a mad runaway, and with the small rider lying prone on his bare back disappeared from view.

At this spot the fire had spent its fury in the first mad rush, but a heavy smoke welled up from the charred ground. Terror possessed the horse, but the calm voice of his mistress urged him on. Crimson embers showered about her. Scorching heat fanned her face as if the doors of a blast furnace had been opened. A blazing branch fell with a rushing sound, barely missing the horse's head. Sharp reports from the tree-tops made the plucky cayuse shy in a panic of fear.

Filled with apprehension, the crowd of fire-fighters stared with tense anxiety into the drifting smoke. Then a glad cheer burst from them as horse and rider emerged.

Andy clinging to Connie's stirrup and Donald swaying drunkenly in the rear. Ready hands held water to Andy's parched lips and bathed his hot face as he lay panting on the ground. He sat up with an effort and looked about him. "Where's Connie?" he asked. But Connie had stolen quietly from the scene.

By mid-afternoon the main body of the fire was apparently under control, but the persistent spot-fires kept the entire crew engaged. A huge cottonwood, standing just within the fire-breaks, was the chief offender. Sparks from its lofty blazing top were floated by the breeze to land on the dry ground, starting innumerable fires.

"That tree will have to come down or we will be fighting spot fires indefinitely," said Wilkinson.

Silence fell. Everyone of those lumber-jacks knew the danger attached to the falling of a rotten, blazing tree. In sound timber the skilled "faller" can cut the scarf and drive the falling-wedge to lay the tree within six inches of the desired spot. With a hollow tree the task is much more difficult, as in the soft, decayed pulp the wedge may not provide sufficient leverage to swing the enormous weight, and the tree may crash from any angle.

Men working at the butt of a burning tree, too, are exposed to the fall of branches. Even a small bough, hurtling from the dizzy height of lordly cottonwood or fir, will break a man's limbs.

Wilkinson picked up a falling saw. "Who will go with me?" he called.

Gillis stepped forward with wedge and hammer.

"Nothin' doin'," said little Blackie; "Wilkinson here has a wife and kid, an' Jack has brains enough to be our boss. Me and Hoop-la ain't got neither, we're just a coupla rough-necks. Whadda you say, Hoop-la?" "Ye betcha," came vigorously from Blackie's pal.

Two men were sent with them to assist in clearing a space at the foot of the big snag. A few minutes later the twang of the cross-cut, mingled with Blackie's happy song, sounded above the crackling of the fire.

Wilkinson pointed to the southern sky, where heavy nimbus clouds were massing. "At last! The blessed rain is coming!" he cried in a voice of thankfulness.

A stronger gust swept through the valley to send a surge of flame from the giant cottonwood's topmost branches. There was a sharp cry of warning as a limb broke off with a splinter-crash and came roaring to the ground, sending up a swirl of dust. A strangled cry of pain, animal-like in its intensity, cut the air.

—take it!
It's Safe

The nurse tells you to take Aspirin because she knows that it is safe. Doctors have told her so. It has no effect on the heart, so take it to stop a headache or check a cold. For almost instant relief of neuralgia, neuritis, rheumatism; even lumbago. But be sure it's Bayer—the genuine Aspirin. At druggists, with proven directions for its many uses.

Aspirin is a Trademark Registered in Canada

ASPIRIN

"Blackie's hit," screamed Hoop-la. Blackie lay on his face, his clothing afire, pinned down by the shattered limb. With a heave of powerful shoulders Hoop-la flung the crushing weight aside, and his big hands quickly smothered the fire in the clothing of his fallen comrade. Gently he raised the stricken man in his arms and bore him beyond the range of fire.

"Blackie! Oh, Blackie! are you all right?" he questioned fearfully as he looked down at the quiet face that

held the grey pallor of death.

"Call the doctor and bring a stretcher," sharply ordered Wilkinson.

(To Be Continued.)

Taken Without Question

There are times when we question the pronouncements of the learned, but one of the things we have decided not to prove for ourselves is the recent statement of a prominent naturalist that lions are near-sighted.

Protect their Tender Skins and Silky Hair with Cuticura

WINDOLITE

MADE IN ENGLAND

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, school, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

GOOD ADVICE FROM MOTHER OF SEVEN

Recommends Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I began taking

Vegetable Compound for nerves and other troubles and I must say I felt different after the first dose. I have been told this last six months that I look twenty-five, although I am now forty-seven and have had seven children. I have taken the Vegetable Compound regularly for some time and sleep well, rise early and feel young."—Mrs. McKee, 18 Laurier Ave., Toronto, Ontario.

than ten acres for grains; one acre
for clovers, grasses and corn; one half
acre for potatoes; three acres for sugar
beets; and one acre for boys and
girls competition in sugar beets, in
which case the age limit is nineteen
years and under.3. There must not be less than ten
entries in each class.4. Prizes to the amount of not less
than \$75.00 shall be offered in each
class.5. All fields and plots shall be situated
within twenty miles of the
headquarters of such society or organization
with which the entry is made.6. The field or plot entered for competition
must be selected before the
arrival of the judge, and stake out in
such a manner that the judge will be
able to distinguish the block entered
without difficulty. Neglect to do this
will be considered disqualification. In
order to avoid mistakes, and secure
information concerning methods of
improvement, competitors should accompany
the judge to the field.7. Each competitor shall enter with
one Agricultural Society, only or only
with one organization properly formed
to conduct such a competition.8. No competitor shall be allowed to
make more than one entry in each
class.9. The awards will be made by the
judges supplied by the Field Crop
Branch of the Provincial Department
of Agriculture.10. Societies or other organizations
desiring to enter this competition
must notify the Field Crops Commissioner,
Dept. of Agriculture, Edmonton,
not later than July 1.11. Entries shall be made on or before
May 1st to the secretary of the
society or organization conducting
such competition.12. The secretary shall mail to the
Field Crops Commissioner at Edmonton,
not later than July 15, a statement
showing all entries made, arranged
in a suitable order for the judges.13. The first, or any, prize need not
be awarded unless in the opinion of
the judge the exhibit is worthy.14. The society or organization conducting
such competition will make
provision for the judges to get from
farm to farm.15. An Entrance fee of \$2 must be
paid to the secretary of the organization,
this money to be used for prizes.**CARD OF THANKS**Mrs. W. Dixon and family and Mr.
